Subject: SDS Changes for DOWSIL™ Z-6341 Silane, XIAMETER™ OFS-6341 Silane

Dear Customer,

This letter is to further explain changes that have occurred to the Safety Data Sheet (SDS) and labeling for the following Products:

- DOWSIL™ Z-6341 Silane
- XIAMETER™ OFS-6341 Silane

As new information becomes available regarding the raw materials used in Dow Products, we work to update the related Dow Product hazards accordingly. The SDSs and labels for the above Products were recently updated to include the environmentally hazardous pictogram and related hazard phrases, based on updated ecotoxicological and environmental fate data that are shown in section 12 of the SDS. This is not due to a change in the Product itself, such as a deliberate substitution or modification of the formulation that would likely impact the chemical, physical, or functional properties of the finished Product; nor does this classification change adversely affect the safety profile of the molecule in its intended uses, as documented in the EU Reach registration dossier.

This information is provided in good faith and is believed accurate as of the date of this letter based on a review of current information. No warranty is expressed or implied. Liability is expressly disclaimed.

Sincerely,

Mike Bradford
Product Stewardship Manager
Dow Silicones Corporation

NOTE: The contract for supply of the customer's Dow Product(s)¹ remains between the customer and the supplying Dow legal entity or Dow distributor as appropriate. Responsibility for the information provided hereunder rests solely with that supplying entity. This letter does not represent a commitment to supply any Dow Product.

DISCLAIMER: This information is considered accurate and reliable as of the date appearing above and is presented in good faith. Because use conditions and applicable laws may differ from one location to another and may change with time, Recipient is responsible for determining whether the information in this document is appropriate for Recipient's use. Since Dow has no control over how this information may be ultimately used, all liability is expressly disclaimed and Dow assumes no obligation or liability therefore. No warranty, express or implied, is given nor is freedom from any patent owned by Dow or others to be inferred.
